

C I R C U L A R

Circular no: 88-ES/CIR/2025/105
Date: 18th November 2025
To: All Tourist Resorts
Subject: Request for Submission of Tourism Sector Energy Data

Dear Sir/Madam,

Greetings from the Ministry of Tourism and Environment.

As part of the Maldives' national commitment to sustainable development, the Government is undertaking targeted efforts to increase the share of renewable energy in the national electricity mix, with the aim of achieving 33% renewable electricity generation by 2028. Reaching this goal will reduce dependence on imported fossil fuels, lower national carbon emissions, and strengthen long-term energy security. Since the tourism sector accounts for nearly half of the country's total electricity consumption, its participation is essential to the success of this transition.

To support effective planning and decision-making, the Ministry is carrying out a detailed review of the national power sector, including contributions from the resort sector. Understanding the updated energy situation within the tourism industry is a vital part of this process. Therefore, we kindly request your assistance in completing the information form provided at the link below and submitting it before the 30th November 2025.
<https://form.iotform.com/253008362611448>

Your cooperation is highly valued, and we thank you for contributing to the Maldives' ongoing efforts to build a more sustainable energy future.

Yours Sincerely,

Ali Shinan

Deputy Director General
